INTRODUCTION

Children are the future of this country and the leaders of tomorrow. In them, we put forth our hopes, aspirations, dreams and promise of a better Malaysia. They must be given opportunities to enjoy childhood moments and experiences while navigating the passage through adulthood. Nevertheless, despite such admirable ideals, we continuously see episodes of heart wrenching stories concerning children deprived of their rights and denied chances to achieve their full potential. Child marriages illustrate such losses and it has captured the imagination of the society one too many times.

Moving forward, the Government has embarked on an arduous yet needed journey to address this issue of child marriage. To mark the solemn yet important stance that the Government is taking, the Government developed a comprehensive plan. The National Strategic Plan in Handling the Causes of Child Marriage or simply known as the Plan is the culmination of more than a year’s journey involving many discussions and strategic partnerships and high level collaborations involving Ministries and Agencies at the Federal level, Agencies at the State level, Non-Governmental Organisations, International Bodies and the participation of children.
